AANA JOURNAL

Volume 81
2013 *AANA Journal* Index

The following is an index of the major topics addressed in the* AANA Journal *during 2013. The index is alphabetized according to headings, and entries appear in chronological order within the headings. Author and subject indexes are integrated.

A

AANA Journal Course
Part 6—Anesthesia case management for video-assisted thoracoscopic surgery, 65; Part 1—Pathophysiology and management of angiotensin-converting enzyme inhibitor–associated refractory hypotension during the perioperative period, 133; Part 2—Mitochondrial diseases and anesthesia: a literature review of current opinions, 237; Part 3—Tobacco smoking using a waterpipe (hookah): what you need to know, 308; Part 4—Transcatheter aortic valve replacement, 399; Part 5—Like a slippery fish, a little slime is a good thing: the glycocalyx revealed, 473
AANA Journal Course No. 32 Examination Information—Update for nurse anesthetists, 141
AANA Journal Course No. 32 Examination—Update for nurse anesthetists (examination questions), 146
AANA Journal Course No. 32 Examination—Update for nurse anesthetists (examination answers), 314
AANA Journal Course No. 32–2013 Evaluation Form, 143
Absorption atelectasis: incidence and clinical implications, 205
Academic success
Predicting success in nurse anesthesia programs: an evidence-based review of admission criteria, 183
ACE inhibitor–associated refractory hypotension
see *AANA Journal* Course, Part 1, 133
Acetylcholine receptors
Anesthetic implications of myasthenia gravis: a case report, 386
Activated charcoal filters
see Letters, 169
Activated partial thromboplastin time
Thromboelastography-guided transfusion therapy in the trauma patient, 127
Adams-Henderson JM see Ceremuga TE
Admission selection criteria
Predicting success in nurse anesthesia programs: an evidence-based review of admission criteria, 183; Emotional intelligence as a noncognitive factor in student registered nurse anesthetists, 465
Adriani MB, Moriber N: Preoperative forced air warming combined with intraoperative warming versus intraoperative warming alone in the prevention of hypothermia for patients undergoing gynecological surgery, 446
Advanced cardiac life support
Pulseless electrical activity in a pediatric patient: a case report and review of causative factors and treatment, 459
Advanced practice
see Practice News, 347
Adverse cardiac events
Preoperative forced air warming combined with intraoperative warming versus intraoperative warming alone in the prevention of hypothermia for patients undergoing gynecological surgery, 446
Adverse event reduction
see Guest Editorial, 425
Adverse licensing actions
see Education News, 97
Afghanistan
Delayed onset of suspected malignant hyperthermia during sevoflurane anesthesia in an Afghan trauma patient: a case report, 441
Age factors
Cochlear implant in an ambulatory surgery center, 55; Perioperative changes in oxygen saturation after ambulatory laparoscopic cholecystectomy: a retrospective analysis, 292
Air
Evidence for using air or fluid when identifying the epidural space, 23
Air filtration
Forced-air warming design: evaluation of intake filtration, internal microbial buildup, and airborne-contamination emissions, 275
Airborne contaminants
Forced-air warming design: evaluation of intake filtration, internal microbial buildup, and airborne-contamination emissions, 275
Airway
Examining transfer of care processes in nurse anesthesia practice: introducing the PATIENT protocol, 225
Airway instrumentation
Unilateral hypoglossal neurapraxia following endotracheal intubation for total shoulder arthroplasty, 233
Airway management
Use of a positive pressure endoscopic mask to assist with positive pressure ventilation in a morbidly obese patient during fiberoptic intubation: a case report, 282
Airway setups
Implementing a perpetual anesthesia setup standardized for the trauma room in a level I trauma center, 43
Airway stenting
Use of a positive pressure endoscopic mask to assist with positive pressure ventilation in a morbidly obese patient during fiberoptic intubation: a case report, 282
Albrecht MC see Reed M
A-lines (ultrasonography)
Detection of pneumothorax with ultrasound, 265
Aldehydes
see *AANA Journal* Course, Part 3, 308
Allergies
Examining transfer of care processes in nurse anesthesia practice: introducing the PATIENT protocol, 225
Ambulatory surgery
Perioperative changes in oxygen saturation after ambulatory laparoscopic cholecystectomy: a retrospective analysis, 292; Cochlear implant in an ambulatory surgery center, 55
Amniocentesis, decompression
Elective laparoscopic fetal laser photocoagulation in twin-twin transfusion syndrome: a case report, 222
Amniotic septostomy
Elective laparoscopic fetal laser photocoagulation in twin-twin transfusion syndrome: a case report, 222
Amos VY see Books, Etc., 260
Amygdalocentric neurocircuitry
Development of an amygdalocentric neurocircuitry-reactive aggression theoretical model of emergence delirium in posttraumatic stress disorder: an integrative literature review, 379
Analgesia
Evidence for using air or fluid when identifying the epidural space, 23
Anaphylaxis
Preoperative chlorhexidine anaphylaxis in a patient scheduled for coronary artery bypass graft: a case report, 209
Andrews JE: Severe pulmonary hypertension: a noncardiac, nonobstetric surgical case study, 297
Anemia
Elective laparoscopic fetal laser photocoagulation in twin-twin transfusion syndrome: a case report, 222
Anesthesia care team risk: considerations to standardize anesthesia technician training, 121
Anesthesia equipment
Implementing a perpetual anesthesia setup standardized for the

Unilateral hypoglossal neurapraxia following endotracheal intubation for total shoulder arthroplasty, 233
Airway management
Use of a positive pressure endoscopic mask to assist with positive pressure ventilation in a morbidly obese patient during fiberoptic intubation: a case report, 282
Airway setups
Implementing a perpetual anesthesia setup standardized for the trauma room in a level I trauma center, 43
Airway stenting
Use of a positive pressure endoscopic mask to assist with positive pressure ventilation in a morbidly obese patient during fiberoptic intubation: a case report, 282
Albrecht MC see Reed M
A-lines (ultrasonography)
Detection of pneumothorax with ultrasound, 265
Aldehydes
see *AANA Journal* Course, Part 3, 308
Allergies
Examining transfer of care processes in nurse anesthesia practice: introducing the PATIENT protocol, 225
Ambulatory surgery
Perioperative changes in oxygen saturation after ambulatory laparoscopic cholecystectomy: a retrospective analysis, 292; Cochlear implant in an ambulatory surgery center, 55
Amniocentesis, decompression
Elective laparoscopic fetal laser photocoagulation in twin-twin transfusion syndrome: a case report, 222
Amniotic septostomy
Elective laparoscopic fetal laser photocoagulation in twin-twin transfusion syndrome: a case report, 222
Amos VY see Books, Etc., 260
Amygdalocentric neurocircuitry
Development of an amygdalocentric neurocircuitry-reactive aggression theoretical model of emergence delirium in posttraumatic stress disorder: an integrative literature review, 379
Analgesia
Evidence for using air or fluid when identifying the epidural space, 23
Anaphylaxis
Preoperative chlorhexidine anaphylaxis in a patient scheduled for coronary artery bypass graft: a case report, 209
Andrews JE: Severe pulmonary hypertension: a noncardiac, nonobstetric surgical case study, 297
Anemia
Elective laparoscopic fetal laser photocoagulation in twin-twin transfusion syndrome: a case report, 222
Anesthesia care team risk: considerations to standardize anesthesia technician training, 121
Anesthesia equipment
Implementing a perpetual anesthesia setup standardized for the

trauma room in a level I trauma center, 43; see Letters, 169
Anesthesia malpractice
see Education News, 178
Anesthesia providers
see Guest Editorial, 15; see Education News, 97; Anesthesia care team risk: considerations to standardize anesthesia technician training, 121; see Education News, 178; see Practice News, 347; Army anesthesia provider's perceptions of emergence delirium subsequent to general anesthesia in service members, 433
Anesthesia quality
Evidence for using air or fluid when identifying the epidural space, 23
Anesthesia-related medical malpractice
see Education News, 97
Anesthesia support personnel, technicians
Anesthesia care team risk: considerations to standardize anesthesia technician training, 121
Anesthesia workstations
see Letters, 169
Anesthesiologists see Anesthesia providers
Anesthetic implications of myasthenia gravis: a case report, 386
Anesthetic management of a patient with congenital insensitivity to pain: a case report, 376
Anesthetic management of a simultaneous emergency craniotomy and cesarean delivery, 394
Anesthetic–amygdalocentric neurocircuitry interactions
Development of an amygdalocentric neurocircuitry-reactive aggression theoretical model of emergence delirium in posttraumatic stress disorder: an integrative literature review, 379
Angiotensin-converting enzyme inhibitors
see *AANA Journal* Course, Part 1, 133
Animal models
Investigation of the anxiolytic effects of xanthohumol, a component of *Humulus lupulus* (hops), in the male Sprague-Dawley rat, 193
Antiatherogenics
see *AANA Journal* Course, Part 5, 473
Antibiotics
Examining transfer of care processes in nurse anesthesia practice: introducing the PATIENT protocol, 225
Antidepressants
Methylene blue encephalopathy: a case report and review of published cases, 215
Antihemophilic factor/von Willebrand factor complex [human] von Willebrand disease and cardiopulmonary bypass: a case report, 60
Antiseptics
Preoperative chlorhexidine anaphylaxis in a patient scheduled for coronary artery bypass graft: a case report, 209
Anxiolytic effects
Investigation of the anxiolytic effects of xanthohumol, a component of *Humulus lupulus* (hops), in the male Sprague-Dawley rat, 193
Aortic stenosis
Aortic valve bypass: a case summary and discussion of anesthesia considerations, 50; see *AANA Journal* Course, Part 4, 399
Aortic valve bypass: a case summary and discussion of anesthesia considerations, 50
Aortic valve replacement
see *AANA Journal* Course, Part 4, 399
Aortic valved conduit
Aortic valve bypass: a case summary and discussion of anesthesia considerations, 50
Apgar score
To press or not to press, and if so, with what? A single question–focused meta-analysis of vasopressor choice during regional anesthesia in obstetrics, 261
Apnea
see Letters, 13
Apnea, induced
see *AANA Journal* Course, Part 4, 399
Apicoaortic conduit
Aortic valve bypass: a case summary and discussion of anesthesia considerations, 50
Are you ready for obstructive sleep apnea screening?
see Letters, 13
Arghile
see *AANA Journal* Course, Part 3, 308
Army anesthesia provider's perceptions of emergence delirium subsequent to general anesthesia in service members, 433
Aromatic hydrocarbons
see *AANA Journal* Course, Part 3, 308
Arrhythmias
Pulseless electrical activity in a pediatric patient: a case report and review of causative factors and treatment, 459
Arteriovenous vascular communication
Elective laparoscopic fetal laser photocoagulation in twin-twin transfusion syndrome: a case report, 222
Arthroplasty
Unilateral hypoglossal neurapraxia following endotracheal intubation for total shoulder arthroplasty, 233
Arthroscopy
see Letters, 171; Anesthetic management of a patient with congenital insensitivity to pain: a case report, 376
Asepsis
see Practice News, 174
Aspiration
see Letters, 257
Assessment
see Practice News, 92; Examining transfer of care processes in nurse anesthesia practice: introducing the PATIENT protocol, 225; see *AANA Journal* Course, Part 3, 308
Atelectasis
Absorption atelectasis: incidence and clinical implications, 205
Atkins CS see Letters, 13
Austere environment
Delayed onset of suspected malignant hyperthermia during sevoflurane anesthesia in an Afghan trauma patient: a case report, 441
Austin PN see Sanford CL II; Ortega KH; Roberson MC; Gegel BT
Autoimmune neuromuscular disorders
Anesthetic implications of myasthenia gravis: a case report, 386
Autonomy
see Practice News, 347

B

Balanced sedation
Propofol compared with combination propofol or midazolam/fentanyl for endoscopy in a community setting, 31
Balloon valvuloplasty
see *AANA Journal* Course, Part 4, 399
Banek R, Weatherwax J, Spence D, Perry S, Muldoon S, Capacchione J: Delayed onset of suspected malignant hyperthermia during sevoflurane anesthesia in an Afghan trauma patient. a case report, 441
Barcode sign (ultrasonography)
Detection of pneumothorax with ultrasound, 265
Bat sign (ultrasonography)
Detection of pneumothorax with ultrasound, 265
Beach chair position
Unilateral hypoglossal neurapraxia following endotracheal intubation for total shoulder arthroplasty, 233
Benzodiazepine binding site
Investigation of the anxiolytic effects of xanthohumol, a component of *Humulus lupulus* (hops), in the male Sprague-Dawley rat, 193
Benzodiazepines
Posttraumatic stress disorder and anesthesia emergence, 199; Pediatric posttransplant anesthesia: a summary review of the literature with recommendations for clinical practice, 286
Biddle C: To press or not to press, and if so, with what? A single question–focused meta-analysis of vasopressor choice during regional anesthesia in obstetrics, 261
Biddle C see Letters, 257; *AANA Journal* Course, Part 5, 473
B-lines (ultrasonography)
Detection of pneumothorax with ultrasound, 265
Blood circulation
Epidural anesthesia for cesarean delivery facilitated by minimally invasive hemodynamic monitoring in a patient with Fontan repair: a case report, 303
Blood pressure regulation

see *AANA Journal* Course, Part 1, 133
Blood transfusion
Thromboelastography-guided transfusion therapy in the trauma patient, 127
Body mass index
Perioperative changes in oxygen saturation after ambulatory laparoscopic cholecystectomy: a retrospective analysis, 292
Body temperature
A review of the evidence for active preoperative warming of adults undergoing general anesthesia, 351
Books, Etc.
Addicted Healers: 5 Key Signs Your Healthcare Professional May Be Drug Impaired, 89; A Practical Approach to Anesthesia Equipment, 89; *Pharmacology and Physiology for Anesthesia: Foundations and Clinical Application*, 260
Bordi S see *AANA Journal* Course, Part 6, 65
Brachial plexus
see Letters, 337
Brachial plexus injury
A novel approach to improving the safety of patients undergoing lumbar laminectomy, 389
Brazzel C: Thromboelastography-guided transfusion therapy in the trauma patient, 127
Bronchopulmonary dysplasia
Pediatric posttransplant anesthesia: a summary review of the literature with recommendations for clinical practice, 286
Bronchoscopy
Pulseless electrical activity in a pediatric patient: a case report and review of causative factors and treatment, 459
Burns SM see Ortega KH

C

C5 nerve root block
Ultrasound-guided placement of combined superficial cervical plexus and selective C5 nerve root catheters: a novel approach to treating distal clavicle surgical pain, 19; see Letters, 337
Calendar of Events, 73, 153, 244, 320, 409, 481
Calcium channel blockers
Severe pulmonary hypertension: a noncardiac, nonobstetric surgical case study, 297
Capacchione J see Banek R
Carbon monoxide
see *AANA Journal* Course, Part 3, 308
Carboxyhemoglobin
see *AANA Journal* Course, Part 3, 308
Carcinogens
see *AANA Journal* Course, Part 3, 308
Carcinoma
Use of a left-sided double-lumen endotracheal tube in a patient with a prior left pneumonectomy, 369
Cardiac arrest
Pulseless electrical activity in a pediatric patient: a case report and review of causative factors and treatment, 459
Cardiac diseases
see *AANA Journal* Course, Part 4, 399
Cardiac ejection
see *AANA Journal* Course, Part 4, 399
Cardiac output
Epidural anesthesia for cesarean delivery facilitated by minimally invasive hemodynamic monitoring in a patient with Fontan repair: a case report, 303
Cardiac surgery
von Willebrand disease and cardiopulmonary bypass: a case report, 60
Cardiac tamponade
Pulseless electrical activity in a pediatric patient: a case report and review of causative factors and treatment, 459
Cardiac valve disease
Aortic valve bypass: a case summary and discussion of anesthesia considerations, 50; von Willebrand disease and cardiopulmonary bypass: a case report, 60; see *AANA Journal* Course, Part 4, 399
Cardiopulmonary bypass
von Willebrand disease and cardiopulmonary bypass: a case report, 60
Cardiovascular diseases
see *AANA Journal* Course, Part 3, 308; Anesthetic implications of myasthenia gravis: a case report, 386
Cardiovascular monitoring
see Practice News, 92
Catheter, perineural
Ultrasound-guided placement of combined superficial cervical plexus and selective C5 nerve root catheters: a novel approach to treating distal clavicle surgical pain, 19
Caudle J see Letters, 257
Caudle JN see Poulos JE
Central line kits
Implementing a perpetual anesthesia setup standardized for the trauma room in a level I trauma center, 43
Central venous catheter
Preoperative chlorhexidine anaphylaxis in a patient scheduled for coronary artery bypass graft: a case report, 209; see Education News, 341
Ceremuga TE, Johnson LA, Adams-Henderson JM, McCall S, Johnson D: Investigation of the anxiolytic effects of xanthohumol, a component of *Humulus lupulus* (hops), in the male Sprague-Dawley rat, 193
Certification
Anesthesia care team risk: considerations to standardize anesthesia technician training, 121
Certified Registered Nurse Anesthetists see Anesthesia providers
Cervical plexus block
Ultrasound-guided placement of combined superficial cervical plexus and selective C5 nerve root catheters: a novel approach to treating distal clavicle surgical pain, 19
Cervical spine nerve injuries
A novel approach to improving the safety of patients undergoing lumbar laminectomy, 389
Cesarean delivery
Epidural anesthesia for cesarean delivery facilitated by minimally invasive hemodynamic monitoring in a patient with Fontan repair: a case report, 303; Anesthetic management of a simultaneous emergency craniotomy and cesarean delivery, 394
Charcoal filters
see Letters, 169
Checklists
Examining transfer of care processes in nurse anesthesia practice: introducing the PATIENT protocol, 225; A novel approach to improving the safety of patients undergoing lumbar laminectomy, 389; see Guest Editorial, 425
China
see Guest Editorial, 15
Chlorhexidine
Preoperative chlorhexidine anaphylaxis in a patient scheduled for coronary artery bypass graft: a case report, 209
Cholecystectomy
Perioperative changes in oxygen saturation after ambulatory laparoscopic cholecystectomy: a retrospective analysis, 292
Chronic illness
Pediatric posttransplant anesthesia: a summary review of the literature with recommendations for clinical practice, 286
Cigarettes
see *AANA Journal* Course, Part 3, 308
Circulation
Epidural anesthesia for cesarean delivery facilitated by minimally invasive hemodynamic monitoring in a patient with Fontan repair: a case report, 303
Clavicle fracture
Ultrasound-guided placement of combined superficial cervical plexus and selective C5 nerve root catheters: a novel approach to treating distal clavicle surgical pain, 19
Clinical experience
Predicting success in nurse anesthesia programs: an evidence-based review of admission criteria, 183; Emotional intelligence as a noncognitive factor in student registered nurse anesthetists, 465
Clinical privileges
see Education News, 97

Clinical privileging changes
see Education News, 97
Clonidine
Posttraumatic stress disorder and anesthesia emergence, 199
Coagulase-negative staphylococci
Forced-air warming design: evaluation of intake filtration, internal microbial buildup, and airborne-contamination emissions, 275
Coagulation disorders
von Willebrand disease and cardiopulmonary bypass: a case report, 60; Thromboelastography-guided transfusion therapy in the trauma patient, 127
Coagulation pathways
Thromboelastography-guided transfusion therapy in the trauma patient, 127
Cochlear implant in an ambulatory surgery center, 55
Collaboration
see Guest Editorial, 425
Collins SB: Emotional intelligence as a noncognitive factor in student registered nurse anesthetists, 465
Colonoscopy
Propofol compared with combination propofol or midazolam/fentanyl for endoscopy in a community setting, 31
Collins S see Haslam B
Comet tails (ultrasonography)
Detection of pneumothorax with ultrasound, 265
Comfort
Palliative sedation in nursing anesthesia, 113
Communication
Examining transfer of care processes in nurse anesthesia practice: introducing the PATIENT protocol, 225; see Guest Editorial, 425
Communication barriers
see Guest Editorial, 425
Competence
see Education News, 97; 341
Complications
Elective laparoscopic fetal laser photocoagulation in twin-twin transfusion syndrome: a case report, 222; Unilateral hypoglossal neurapraxia following endotracheal intubation for total shoulder arthroplasty, 233; Impact of goal-directed perioperative fluid management in high-risk surgical procedures: a literature review, 357; see *AANA Journal* Course, Part 4, 399; see Letters, 337
Concurrent surgery
Anesthetic management of a simultaneous emergency craniotomy and cesarean delivery, 394
Congenital heart defects
Epidural anesthesia for cesarean delivery facilitated by minimally invasive hemodynamic monitoring in a patient with Fontan repair: a case report, 303
Congenital, hereditary, and neonatal diseases and abnormalities
Anesthetic management of a patient with congenital insensitivity to pain: a case report, 376
Conscious sedation
Propofol compared with combination propofol or midazolam/fentanyl for endoscopy in a community setting, 31
Contamination
Survey of syringe and needle safety among student registered nurse anesthetists: are we making any progress? 37
Continuity of care
see Practice News, 92; Examining transfer of care processes in nurse anesthesia practice: introducing the PATIENT protocol, 225
Contrera P see *AANA Journal* Course, Part 4, 399
Cook KA see Education News, 341
Cooling adjuncts
Examining transfer of care processes in nurse anesthesia practice: introducing the PATIENT protocol, 225
Correction
Rethinking the paradigm: evaluation of ketamine as a neurosurgical anesthetic, 18
Cost-effectiveness
Implementing a perpetual anesthesia setup standardized for the trauma room in a level I trauma center, 43
Cost factors, anesthesia malpractice
see Education News, 178
Costs of healthcare
Survey of syringe and needle safety among student registered nurse anesthetists: are we making any progress? 37; Cochlear implant in an ambulatory surgery center, 55
Council on Accreditation of Nurse Anesthesia Educational Programs: Upcoming Accreditation Reviews, 16
Cranial nerves
Unilateral hypoglossal neurapraxia following endotracheal intubation for total shoulder arthroplasty, 233
Craniotomy
Anesthetic management of a simultaneous emergency craniotomy and cesarean delivery, 394
CRNAs see Anesthesia providers
Cryoprecipitate
von Willebrand disease and cardiopulmonary bypass: a case report, 60
Cushing M see *AANA Journal* Course, Part 4, 399

D

De Jarnett D: Use of a positive pressure endoscopic mask to assist with positive pressure ventilation in a morbidly obese patient during fiberoptic intubation: a case report, 282
Delayed onset of suspected malignant hyperthermia during sevoflurane anesthesia in an Afghan trauma patient: a case report, 441
Dependence, drug
see *AANA Journal* Course, Part 3, 308
Depression
Effects of ketamine on major depressive disorder in a patient with posttraumatic stress disorder, 118; Methylene blue encephalopathy: a case report and review of published cases, 215
Desmopressin
von Willebrand disease and cardiopulmonary bypass: a case report, 60
Detection of pneumothorax with ultrasound, 265
Development of an amygdalocentric neurocircuitry-reactive aggression theoretical model of emergence delirium in posttraumatic stress disorder: an integrative literature review, 379
Dexmedetomidine
Posttraumatic stress disorder and anesthesia emergence, 199
Diabetes
see *AANA Journal* Course, Part 5, 473
Dieckmann LS see Roberson MC
Dilutional analyses
Impact of goal-directed perioperative fluid management in high-risk surgical procedures: a literature review, 357
Dionisio D see Kline JP
Disease onset
Delayed onset of suspected malignant hyperthermia during sevoflurane anesthesia in an Afghan trauma patient: a case report, 441
Disease prevention
Survey of syringe and needle safety among student registered nurse anesthetists: are we making any progress? 37; see Practice News, 174
Disease susceptibility
see Letters, 169; Methylene blue encephalopathy: a case report and review of published cases, 215
Disease transmission mechanisms
Survey of syringe and needle safety among student registered nurse anesthetists: are we making any progress? 37
Disinfectants
Preoperative chlorhexidine anaphylaxis in a patient scheduled for coronary artery bypass graft: a case report, 209
Disposable equipment
Emerging evidence in infection control: effecting change regarding use of disposable laryngoscope blades, 103
Distal clavicle repair
Ultrasound-guided placement of combined superficial cervical plexus and selective C5 nerve root catheters: a novel approach to treating distal clavicle surgical pain, 19; see Letters, 337
DNA mutations
see *AANA Journal* Course, Part 2, 237
Documentation
see Practice News, 92

Dopamine
see *AANA Journal* Course, Part 3, 308
Doppler ultrasonography
Impact of goal-directed perioperative fluid management in high-risk surgical procedures: a literature review, 357
Double-lumen endotracheal tube
see *AANA Journal* Course, Part 6, 65; Use of a left-sided double-lumen endotracheal tube in a patient with a prior left pneumonectomy, 369
Droperidol
Posttraumatic stress disorder and anesthesia emergence, 199
Drug dependence
see *AANA Journal* Course, Part 3, 308
Drug interactions
Investigation of the anxiolytic effects of xanthohumol, a component of *Humulus lupulus* (hops), in the male Sprague-Dawley rat, 193; Development of an amygdalocentric neurocircuitry-reactive aggression theoretical model of emergence delirium in posttraumatic stress disorder: an integrative literature review, 379
Drug-disease interactions
see *AANA Journal* Course, Part 2, 237
Drug tolerance
see *AANA Journal* Course, Part 3, 308
Dunn KS see McLott J
Dying
Palliative sedation in nursing anesthesia, 113

E

Early T see Kline JP
Education
see Guest Editorial, 15; Anesthesia care team risk: considerations to standardize anesthesia technician training, 121; Predicting success in nurse anesthesia programs: an evidence-based review of admission criteria, 183; Posttraumatic stress disorder and anesthesia emergence, 199
Education News
The National Practitioner Data Bank: what CRNAs need to know, 97; The National Practitioner Data Bank and CRNA anesthesia-related malpractice payments, 178; Assessment of recent graduates preparedness for entry into practice, 341
Educational level
Predicting success in nurse anesthesia programs: an evidence-based review of admission criteria, 183
Educational preparation
see Education News, 341
Effects of ketamine on major depressive disorder in a patient with posttraumatic stress disorder, 118
Efficiency
Propofol compared with combination propofol or midazolam/fentanyl for endoscopy in a community setting, 31
Eissenberg T see *AANA Journal* Course, Part 3, 308
Elderly population
Cochlear implant in an ambulatory surgery center, 55
Elective laparoscopic fetal laser photocoagulation in twin-twin transfusion syndrome: a case report, 222
Elisha S see *AANA Journal* Course, Part 6, 65
Emergence agitation and delirium
Posttraumatic stress disorder and anesthesia emergence, 199; Development of an amygdalocentric neurocircuitry-reactive aggression theoretical model of emergence delirium in posttraumatic stress disorder: an integrative literature review, 379; Army anesthesia provider's perceptions of emergence delirium subsequent to general anesthesia in service members, 433
Emergency surgery
Anesthetic management of a simultaneous emergency craniotomy and cesarean delivery, 394; Delayed onset of suspected malignant hyperthermia during sevoflurane anesthesia in an Afghan trauma patient: a case report, 441
Emerging evidence in infection control: effecting change regarding use of disposable laryngoscope blades, 103
